Profile

Frontend Developer with 3+ years of expertise in building high-performance web applications using React.js and Next.js. Skilled in driving end-to-end frontend development, from designing modular, reusable component libraries to implementing robust state management via Redux Toolkit. Proven ability to translate complex UI/UX designs into responsive, SEO-friendly user platforms and admin panels using Tailwind CSS. A collaborative engineer experienced in seamless API integration and cross-functional delivery.

Skills

Frontend Technologies

- React.js
- Next.js
- JavaScript (ES6+)
- HTML5
- CSS3
- Tailwind CSS
- Bootstrap
- Redux Toolkit

Tools & Concepts

- REST API Integration
- Responsive Web Design, UI/UX Implementation
- Reusable Component Development
- Firebase Authentication, Google Maps API
- Git & GitHub
- Figma
- Manual Testing
- Performance Optimization, Cross-Browser Compatibility

Work Experience

Frontend Developer *Spods Technologies* May 2025 - Present

- Developing scalable and responsive web applications using React.js and Next.js.
- Building complete user-side platforms and admin panels for business management systems.
- Integrating REST APIs and implementing dynamic frontend functionality.
- Developing reusable UI components for scalable and maintainable architecture.
- Optimizing frontend performance and improving user experience across devices.
- Collaborating with designers and backend developers for seamless project delivery.

Frontend Developer *AIPRUS SOFTWARE PVT LTD* June-2023 - Feb-2024

- Developed and maintained responsive web applications using React.js.
- Implemented pixel-perfect UI from Figma and design prototypes.
- Integrated third-party APIs and improved frontend functionality.
- Built reusable components and responsive layouts.
- Performed testing and debugging to maintain application quality.

Frontend Developer *SLOG SOLUTIONS PVT LTD* Mar-2022 - May-2023

- Built responsive user interfaces using HTML, CSS, JavaScript, and React.js.
- Improved frontend performance and ensured cross-browser compatibility.
- Developed responsive layouts for mobile and desktop platforms.
- Maintained code quality through debugging and testing practices.

Education

Completed Graduation from Maharshi Dayanand University, Rohtak, Haryana. 2015 - 2018
MDU, Rohtak- Haryana

Projects

Pick a Pro — Professional Home Services Platform

- Developed a complete service marketplace ecosystem including customer website and admin dashboard using React.js, Next.js, Redux Toolkit, and backend API integration.
- Built responsive interfaces for service booking, provider onboarding, authentication, and operational workflows.
- Implemented Firebase Authentication for secure role-based access and integrated Google Maps API for location-based booking and onboarding features.
- Added real-time updates, push notifications using Firebase, form validations, lazy loading, and analytics dashboards for users, services, and transactions.
- Developed reusable UI components and optimized frontend performance across devices.

Grasberg International (Forex CRM)

- Developed the frontend of a forex business platform combining an informational website and role-based CRM system using Next.js and Tailwind CSS.
- Built responsive and SEO-friendly website pages showcasing forex business services and navigation to the CRM platform.
- Developed frontend modules and API integrations for multiple CRM roles including User, Partner, Super Admin, and Sub Admin.
- Integrated REST APIs and worked with MetaTrader 5 (MT5)-based backend APIs for trading and CRM functionalities.
- Built reusable UI components and optimized frontend responsiveness and performance.

Spods Technologies Website

- Designed and developed the company website using Next.js.
- Built SEO-friendly pages with responsive modern UI.
- Improved website performance and user experience.

NOBIY — E-Commerce Clothing Platform

- Developed an E-commerce clothing web application featuring a dynamic homepage, categories page, user-friendly forms, cart functionality, and authentication for secure logins.
- Ensured seamless user experiences and effective product navigation, enhancing the overall functionality and appeal of the online shopping platform.
- Utilized React, Redux Toolkit, and Tailwind for the frontend.
- Designed UI prototypes in Figma and conducted manual testing for usability and quality.
